

There is NO lack of money
in the world and there is
more than enough money
available to you.

It's what's under the ground that creates what's above the ground. It's what's *invisible* that creates what is *visible*. So what does that mean? It means that if you want to change the fruits, you will first need to change the roots. If you want to change the *visible*, you must first change the *invisible*!

If your motivation for acquiring money or success comes from a non supportive root such as fear, anger, or the need to “prove” yourself, your money will never bring you happiness.

—T Haru.

There is NO lack of money
in the world and there is
more than enough money
available to you.

Decide that you will
get what you want.

We often find we are where
we choose to be.

You are worthy of success and
will enjoy success to the extent—
and only to the extent—that you
believe in yourself.

And if you don't believe in you,
why should they?
