

Module 2 | Week 1

- [Module 2 // Video 1](#)

Soul Work:

Let's begin to understand and dissect YOUR exact money blueprint better through a series of questions! In the second money training seminar this month we will talk about what to do about your money story and reprogram it for optimal wealth and abundance.

Verbal: What did you hear about money when you were younger?

Modeling: What did you see in regards to money when you were young?

Specific events: What did you experience around money when you were young?

1. What is *your* truth about money?

2. What do you believe is THE truth about money?

3. “Nothing has meaning except the meaning you give it.” And the truth is money is what you think it is. What IS money to you? How do you think of it on a regular basis?

IF there is a lack of ANYTHING in your life that means the belief system has not yet been corrected.

“Limiting beliefs do not come from you and your truth. Limiting beliefs come from your conditioning.”

—Gina Devee

4. Write down your top 10 beliefs about money.

Be as honest and detailed as possible.

For example some of mine in the past have been:

"There is not enough money."

"No one ever has enough money."

"I will always just financially get by."

5. That being said for each of your top 10 limiting beliefs about money describe what are the "payoffs" for your limiting beliefs. IE— "I play small and never earn more than \$50K a year so that I can remain somewhat invisible and by doing so feel safe and secure."

6. On a scale of 1-10 what is your commitment to transform these limiting beliefs and wounds into receptive abundance? What would a 10 on the scale look like for you?

Mastering the *Millionaire Mindset* Danielle-Dowling.com

It's time for women like us to THINK BIGGER for ourselves, our businesses and our lives! I'm so excited for you to stop playing small and start dramatically transforming your money story... TODAY!

"We live in a world of duality: Up and down, light and dark, hot and cold, in and out, fast, slow, right and left. Is it possible to have a right side without a left side? Not a chance. Consequently, just as there are "outer" laws of money, there must be "inner" laws. The outer laws include things like business knowledge, money management, and investment strategies. These are essential. But the INNER GAME is just as important."
—T. Harv Eker

You control your mindset and your mindset defines your life. There is no mistaking that you're thinking, your beliefs and your character are a key factor of your level of success.

We all have a "money blueprint," as informed by our past conditioning, that acts as a **PRESET program** (your way of being) in relation to money. Without fail this blueprint will define your financial future! If you want to raise your wealth consciousness and attract massive amounts of money it helps to get clarity on your blueprint.

Discover your money blueprint by answering the below questions. In part two of this work we will look at reprogramming your disempowering thoughts and replacing them with an abundant mindset designed to transform your relationship with wealth forever!

Mastering the *Millionaire Mindset* Danielle-Dowling.com

Verbal: What did you hear about money when you were younger?

For example my father always used to say: "What! Do you think money grows on trees?" "You're making some other dad rich!" And my mom used to send me to my dad saying..."I don't have any money. Ask your father."

What we overheard about money when we were young remain in our subconscious mind and play an intricate part of the financial blueprint that is running your life.

Modeling: What did you see in regards to money when you were young?

What were your caretakers or parents like about money growing up? Were they spenders or savers? Did they invest or not invest? Did one or both of them manage money well or was it mismanaged? Was money always around or was it sporadic? There one day and gone the next. Was money a joyous topic in your household or one of tension and stress? Did your parents always struggle and work "hard" for money or did it flow in easily?

Although most of us hate to admit it there is A LOT of truth in the saying "The apple doesn't fall far from the tree."

Soul Work:

Mastering the *Millionaire Mindset* Pt. 2 Danielle-Dowling.com

"We often find we are where we choose to be.

You are worthy of success and will enjoy success to the extent-and only to the extent-that you believe in yourself.

And if you don't believe in you, why should they?"
—*Sharon Lechter*

RECONDITIONING & MONEY HABITS

1. Retrieve part one of the Millionaire Mindset Worksheet.

Find your answers for the question: What are your top 10 beliefs about money? With a pen or marker please draw a line through each response and write it's empowering alternative.

For example, one of my responses was:
"I will always have to work really, really, really hard for money."

I would now draw a line through it and write in its place:
"Massive amounts of money flow to me easily and often."

At the end of the exercise take notice of how you feel. How did your energy shift? Or not? Did hope bubble up in your heart? Did the ego pop into your head and remind you (yet again) that "great, easy and meaningful wealth will never really be available to you?" Are you willing to believe differently? Are you willing to practice the empowering alternatives?

1

Mastering the *Millionaire Mindset* Pt. 2 Danielle-Dowling.com

Program a few of the empowering alternatives you wrote in response to "What are your top 10 beliefs about money?" into your cell phone alarm and have them go off periodically over the next 21 days.

2. Unfortunately, many of us have the belief that money is bad, and we "shouldn't" want it.

We fear that *wanting it* makes us "greedy," "unlikeable," and "narcissistic." We're afraid we'll be judged for having abundant wealth and many clients I've worked with over the years diminish their earning potential because they feel "guilty" having more money than others.

Truth: Money is just something you need to live out your fullest expression. (The Science of Getting Rich)

In what way is making the money you want about more than just yourself? How will others benefit or be served and transformed by you claiming your wealth?

"Self love in money starts with basic financial literacy."
—*Sharon Lechter*

All women need to be involved with how money flows in and out of their families, professions and lives. Whether or not you are the primary earner in a family, you must understand how money, taxes and investments are flowing and affecting you and your partner.
